Capture your individuality

“We wanted our home to be as unique as us”

Decking that says more about you

Your home has a room you hardly ever use, a room in which you can entertain your friends, spend time with your family or take five minutes at the end of the day to take relax and unwind – that room is your garden. A place that can say just as much about you as your home does – as long as you use the right decking.

The extensive range of Timeless Timber products give you more scope to create the kind of surroundings you really want, while letting you explore your individuality building the kind of garden you feel more relaxed in.

Timeless Timber decking is a great solution to complimenting city life, turning a balcony or roof garden into a stylish retreat and usable space to unwind in.

It also creates the ideal solution to sloping gardens where a traditional patio or decking may be out of the question in the form of a Timeless Timber balcony or raised decking. A balcony looks great from the inside and out, extending your living space as well as your options.

Timeless Timber decking products are specifically designed and manufactured to look the part, while ensuring that your deck is as safe and secure as it is stylish. It adds value as well as attracting compliments to your property.

We are members of the Timber Decking Association which means that all of our products carry the ‘DECKMARK’ certified stamp. It is your guarantee that every single component you use has been rigorously tested to make sure that it conforms and performs to the standards we say it will.

To give you even more assurance, we make sure that all of the boards we use are FSC® Certified, while Timeless Timber accessories have been certified by PEFC and sourced from sustainably managed forests.

Timeless Timber products are also guaranteed for as long as 20 years despite the great British weather.

Timeless Timber Decking

Quality wax treated deckboards

“It’s like a raincoat for your timber”

Deckboards

Our deckboards are pressure treated with an additional wax treatment, Timeless Timber Pro-Wax. The water repellent slows down the rate of water absorption and evaporation, therefore ensuring the longevity of your deckboards. So however you plan to enjoy your outdoor living space, your Timeless Timber decking will help you get the most out of the area in real style.

At first the decking has an even, green hue. Then time and weathering do their work, transforming them to their natural shade of honey brown; a process that means no further treatment is needed

at the installation stage. Of course, the final colour is up to you, Timeless Timber certified decking can be either painted or stained to match its surroundings.

Our deckboards are cut to 32mm in depth and 120mm wide and are available in 2.4m, 3.0m, 3.6m, 4.2m and 4.8m lengths.

Enhanced Grip Decking

“A natural looking solution
for commercial projects”

NEW Enhanced Grip Deckboards

New Timeless Timber enhanced grip deckboards provide a slip resistant solution for commercial projects whilst retaining the natural character of the timber.

The durable, non abrasive textured coating is applied with heat and has been tested to BS7976-2 standard to ensure enhanced safety while walking in wet or dry conditions. The deckboards are also DECKMARK PLUS accredited.

The deckboards are a great solution for use in public areas such as children’s play areas, around outside pools and tubs and can be stained or painted without affecting the performance of the coating.

Timeless Timber Enhanced Grip boards are available at 38x125 (finished size 32x120) and in 2.4m, 3.0m, and 3.6m lengths.

Timeless Timber Decking

Creating solid foundations

“I have enough things to worry about. So why leave this to chance?”

Safe and secure

Like so many other things, no matter how great things look on the surface, it's what goes on underneath that really matters. It's the joists and posts that support your decking that really hold the key to a successful project as they form the very foundation of your decking, if they don't perform as they should, then the life of your decking can be affected, it's as simple as that.

Timeless Timber joists and posts are high pressure preservative treated against rot and decay for in ground contact. Don't compromise the quality of your project. Make sure that you use Timeless Timber joists and posts and your decking will stand the test of time for as long as twenty years. After all, with decking this good you want to pick up the compliments for as long as you possibly can.

Joists are available in 47x150mm and in 2.4m, 3.0m, 3.6m, 4.2m, and 4.8m lengths.

Posts are available in 75x75mm and 100x100mm, and in 1.5m, 1.8m, 2.4m, and 3.0m lengths.

Rustic Style Sleepers

“Create garden features
with style and charm”

Timeless Timber Sleepers

New to the Timeless Timber range are Timeless Sleepers, an attractive alternative to traditional railway sleepers. Their applications are endless from raised beds, steps, retaining walls and garden screens.

Manufactured from British grown, FSC® certified softwood, the sleepers have a rustic, textured appearance. They are high pressure brown treated with Tanatone protection ensuring longevity as well as style.

Timeless Sleepers are available sized 125 x 250 x 2400mm.

Timeless Timber Decking Accessories

Timeless turned range

The Timeless Turned Range has huge aesthetic appeal with finely turned balusters and newel posts with Timeless Universal Rails to complement any decked environment.

Timeless chamfered range

A classic look of straight balusters with a simple chamfered top, Timeless Patrice Newels and Timeless Rails.
